

CHIP CHAIR COLLECTION

KEEP IT
CLEAN,
JIMMY!

CLEAN

Dust with a clean, dry cloth and/or vacuum your upholstered furniture weekly. **For leather upholstery** wipe with a white cloth wrung out in clean water. Avoid using any cleaning products or solutions as these may stain or discolor the surface.

SPILLS

Act quickly with spills. Absorb the spill with a clean white cloth or paper towel. Never rub the surface. **For spills already set on leather**, use a very mild, dye-free detergent and lukewarm water mix and blot with a clean cloth or sponge. **For spills already set on fabric**, spot clean with a dry cleaning fluid; do not use water or liquids as they may stain the fabric. For large or difficult spills, consult a commercial cleaning specialist.

AVOID

Keep upholstery, leather, & felt furniture out of direct sunlight and away from heat sources; excessive exposure to sunlight will fade the color of the upholstery and/or dry out the surface of your furniture and may cause cracking and fading. Avoid placing heavy or sharp objects on or against your furniture as this could puncture the surface or cause permanent indentations. For snags in the fabric, tuck loose threads into fabric or carefully push to reverse side. Never pull out or cut off loose threads.

As Chip settles into his new home, periodically check leg bolts for tightness.
