

SHALE NIGHT STAND

CARE INSTRUCTIONS

KEEP IT CLEAN,
JIMMY!

CARE

Clean with a slightly damp, soft cloth. To remove dirt and fingerprints, use a quality cleaner formulated for wood furniture. Wipe completely dry with a soft cloth in the direction of the wood grain.

NOTE

Air and daylight will naturally change the color of the wood. For most woods, this change is gradual and very slight. During the first several months, while the patina is developing, items placed on the wood should be rotated to different locations to prevent uneven coloration. Over time and even patina will develop.
